Syed Ashiq Hussain kirmani Minister for Agriculture Punjab visited Multan and chaired review meeting about current cotton crop, upcoming wheat campaign and smog control programme. Shakeel Ahmad Mian Secretary Agriculture Punjab, officials of Agriculture Department and progressive growers are present.

Minister for Agriculture Punjab was briefed about current cotton crop condition, finalized strategy for upcoming wheat crop. Ongoing smog control campaign was reviewed in detail.

Ashiq Hussain kirmani Minister for Agriculture Punjab said that a comprehensive strategy is finalized for wheat cultivation and all possible resources and means will be utilized to ensure wheat cultivation and production targets. Speaking on the occasion he said that alternative facilities are being provided to the farmers for proper disposal of rice crop residues. 10 thousands super seeders, 150 modern harvesters and 450 balers have been provided to farmers for smooth field operations to mitigate smog and timely sowing of wheat crop.

Shakeel Ahmad Mian Secretary Agriculture Punjab said that smog campaign is being closely monitored. He said that focal persons have been appointed at the provincial and district levels to ensure effective monitoring and implementation of smog campaign.
