BACKGROUND OF THE PROJECT

Cotton is the lynchpin in the economy of Pakistan but its area under cultivation is declining due to falling per acre productivity and increasing productivity of the competing crops like corn, rice and sugarcane. Reduction in area and production of cotton has created a severe impact not only on the socio economic conditions of the rural population especially in south Punjab but has also created a threat to working of 1200 ginning industrial facilities, 400 material factories, 200 oil plants are depending on cotton edit other than immense number of homestead laborers getting compensation from dibbling, showering, hoeing and picking and so on. Per acre productivity of last year was 10.25 Mds but with climate smart and high yielding seeds and management, this production target/acre can be easily doubled. Keeping in view the present scenario Government of Punjab has intended to launch a mega program of seed replacement through direct subsidy on certified cotton seed program in which Subsidy will be given to eligible farmers through Pre-Paid Vouchers equal to the value of 10 seed bags per farmer according to their land holding. Farmer having 5 acre land will get only 5 bag and will increase with land holding with maximum of 10 bags in any case. Total seed under subsidy program will be offered on 2,000,000 acres (6 Kg and 5 kg delinted, and 10 kg fuzzy) at subsidy of Rs 2000/bag of one acre in cotton regions for seed replacement and productivity enhancement in that area to make cotton more profitable for the farmers.
