Section-III.

TERMS OF REFERENCE (TORS)

I. BACKGROUND

Lack of access to credit and better markets becomes critical constraints to the adoption of new technology; thus, most of such farmers are risk averse and hesitant for the switch to high value crops. The existing conservative production technologies do not offer effective and efficient utilization of agricultural resources, particularly water. Extremely low efficiency of input use has led to wastage and creation of natural resources besides environmental degradation. Resultantly, the country is facing serious threats to food security for its next generations.

Inadequate financial availability of farmers is a major constraint in further expansion of the agriculture sector. Conveniently, available adequate financial resources may cater to enhance agricultural productivity of the country for meeting growing food and fiber demands. Horizontal as well as vertical expansion of agriculture is, therefore, urgently needed for the purpose. It is particularly important to consider possible strategies for increasing farmers' access to credit facilities through efficient management of the scarce financial resources. A comprehensive approach may thus be adopted in this regard by providing a complete package of farm credit resources to minimize financial burden at various levels and improve crop productivity through ensuring ease of access, and reliability. Following projects/initiatives have been taken up by the Agriculture Department for increasing economic access of the farmer to the financial resources needed for productivity enhancement by ensuring crop nutrition:

- a) Chief Minister's Punjab Green Tractor Program
- b) Chief Minister's Program for Solarization of Agricultural Tube Wells in Punjab
- c) Chief Minister Program for Grow More Wheat
- d) Chief Minsiter Kisscan Card
- e) Other CM initiatives that will be approved from time to time

In order to keep farmers updated about every step financial access route, the services of Telecoms are required.
